

Honey Do Box Extractors w/Accessories

The Honey Do Air-Flow Extractors are designed for commercial use to clean carpeted areas efficiency and thoroughly. Their compact size make them ideal for use in small and confined areas.

The dual motor extractor in air parallel runs more efficiently than vacuums in air series. Waterlift is increased in the floor tool suction increasing cleaning power.

The single motor extractor with heater is excellent for cleaning upholstery, auto detailing and spotting carpet especially in restaurant with optional upholstery tool.

Features:

Fiberglass Constructions

Hand layed for durability, corrosion resistant and impervious to cleaning solutions.

Extractor Tank

Hinged onto the motor housing, just release the two front latches and swing tank upwards for easy access to the motors when maintenance is required.

Hi-Impact Clear Dome

Pivots on a slotted bracket to provide a positive seal and allows for constant monitoring of the extractor's cleaning effectiveness.

Control Switches

Conveniently located on the front of the extractor. DPST lighted rocker switches with clean PVC splash proof caps protect against moisture.

Front Gate Valve

Mounted high on the tank for quick evacuation of recovery tank into a bucket or floor drain.

Cleaning Accessories

Include 10 foot solution and recovery hose, 5 foot stainless steel wand and 12" nozzle w/4 spray jets.

Honey Do Specifications:

- Capacity:** 5 Gallon Solution/Recovery
- Power Cord:** 25 Ft, 12/3 SJTW - Safety Yellow
- Rear Wheels:** 6" X 1 1/2" Non-Marking PVC Tread
- Dimensions:** 27" H X 24 1/2" L X 16" W
